Phase 1: Analysis, Start-Up & Design

Start-Up

[   ] Project selection
[   ] Template selection
[   ] Template simplification
[   ] Template .HTML to .PHP conversion
[   ] Include System

Analysis

[   ] Find 3-4 sites similar to your project. Study them.
[   ] Pick one site similar to your project. Take screenshots of all pages. Attach these screenshots in your project file.
[   ] Write down complete list of features of your project in your project file.
[   ] Attain a meeting with your project guide. Discuss features & your project flow. Get approval from guide.

User Side - Draft Drawing

FORMS
[   ] Draw draft of Register pages in project file
[   ] Draw draft of Contact pages in project file
[   ] Draw draft of Upload pages in project file – if any
[   ] Draw draft of Send Message pages in project file
[   ] Draw draft of Forgot Password page in project file

PAGES
[   ] Draw draft of Home pages in project file
[   ] Draw draft of List pages in project file
[   ] Draw draft of Details pages in project file
[   ] Draw draft of User Profile pages in project file
[   ] Draw draft of Search Result pages in project file
[   ] Draw draft of Search User pages in project file
[   ] Draw draft of My Messages pages in project file
[   ] Draw draft of History, About, TOS, etc. pages

DB

[   ] Write down your database design in project file.
[   ] Attain a meeting with your project guide. Discuss database design. Get approval from guide.

User Side - Design

FORMS
[   ] Design Register form
[   ] Design Contact form
[   ] Design Upload form – If Any
[   ] Design Send Message form

PAGES
[   ] Design Home Page
[   ] Design List page
[   ] Design Details page
[   ] Design User Profile Page
[   ] Design Search Result Page
[   ] Design Search User Page
[   ] Design My messages Page
[   ] Design History, About, TOS, etc. pages

User Side - Validations

[   ] Setup jQuery & Server Side validations for all input forms
[   ] Setup validation to check if username already exists on registration form
[   ] Set upload size-limit to 20MB for your project.

Admin Start-Up

[   ] Add admin folder
[   ] Admin Template selection
[   ] Admin Template simplification
[   ] Admin Template .HTML to .PHP conversion
[   ] Include System for Admin Panel

Admin Side - Draft Drawing

 "Management" means insert, display, edit, delete & more features if any. (e.g.: ban/unban/activate/deactivate/etc.)
E.g.: "management of videos" may include 3 different pages: insert video, display video (tabular/grid format) & edit video.

[   ] Draw draft for dashboard in project file
[   ] Draw draft for categories/cities/companies (whatever applicable) management in project file
[   ] Draw draft for user management in project file
[   ] Draw draft for main content management (video/song/product/etc.) in project file
[   ] Draw draft for contacts management in project file
[   ] Draw draft for flagged content management in project file
[   ] Draw draft for static content (History, About, TOS, etc.) management in project file
[   ] Draw draft for website configuration in project file

Admin Side - Design

FORMS
[   ] Design add category/city/company/etc. page
[   ] Design edit category/city/company/etc. page
[   ] Design add user page
[   ] Design edit user page
[   ] Design add content (video/song/product/etc.) page
[   ] Design edit content (video/song/product/etc.) page
[   ] Design static content management page
[   ] Design website configuration page

PAGES
[   ] Design dashboard page
[   ] Design view categories/cities/companies/etc. page
[   ] Design view users page
[   ] Design view contact (video/song/product/etc.) page
[   ] Design view contacts page
[   ] Design view flagged contents page

Phase 2: Coding & Testing

User Side – Coding

FORMS
[   ] Coding for Register form
[   ] Coding for Contact form
[   ] Coding for Upload form – If Any
[   ] Coding for Send Message form

PAGES
[   ] Coding for Home Page (Show Latest Items?)
[   ] Coding for Categories/Cities/Companies Display
[   ] Coding for List page
[   ] Coding for Details page
[   ] Coding for Write Comment (if any)
[   ] Coding for Voting & Rating System (if any)
[   ] Coding for User Profile Page
[   ] Coding for Search Result Page
[   ] Coding for Search User Page
[   ] Coding for Send Message & My messages Page
[   ] Coding for History, About, TOS, etc. pages

Admin Side - Coding

FORMS

[   ] Coding for add category/city/company/etc. page
[   ] Coding for edit category/city/company/etc. page
[   ] Coding for add user page
[   ] Coding for edit user page
[   ] Coding for add content (video/song/etc.) page
[   ] Coding for edit content (video/song/etc.) page
[   ] Coding for static content management page
[   ] Coding for website configuration page

PAGES

[   ] Coding for dashboard page
[   ] Coding for view categories/cities/etc. page
[   ] Coding for view users page
[   ] Coding for view contact (video/song /etc.) page
[   ] Coding for view contacts page
[   ] Coding for view flagged contents page
